Title: Great Holiday and Great Friends

Summary: *(limit 100 words)*

This meeting was planned while attending Xi State last June. I had only meet Elise Rodriguez (President of Beta Gamma) a few times in Memphis. We had the chance to sit together and started to talk about our chapters. We decided to bring our chapters together for a meeting. This was a group meeting with Beta Iota and Beta Gamma Chapters in Memphis. The meeting was held at Milestone Nursery on November3, 2022. The main program provided by Milestone's plant director was on holiday decorations and the history of holiday plants. The chapters were ask to invite prospective members, friends and members that may not have been attending. Both chapters had a record attendance. Refreshments were served. After the welcome and introductions we had a wonderful program. Other highlight: Members from both chapters placed new books in a basket to be donated to Crump Elementary Holiday Book Project for Literacy, Cards were passed out to fill out for the State DKG Memory Project, Introduction of members of Alpha Lambda Chapter that also attended and special guest Linda Eller, Council President. The best part of the program was that two chapters came together for community activity, increased membership, learn a great deal about holiday plants and decorations and enjoyed the evening by making new friends in DKG. We are planning for this to be a new yearly tradition.
