Title: Introduction to the Hardeman County Schools STEM Center (Program)

Summary: (limit 100 words)

In November, STEM Coordinator (and chapter member) Deana Sain provided an overview of the Hardeman County Schools STEM Center where teachers from across the district bring classes for hands-on STEM education under the guidance of Sain, the 2023 Tennessee Science Teachers Association (TSTA) Teacher of the Year for grades 5-8.

Following Deana's presentation, chapter members tried their hands at make-and-take activities - designing fall decorations from sticks and twine or making fragrant bath bombs with simple ingredients. To thank Deana, Beta Sigma purchased supplies for the STEM Center - a large quantity of paper towels and disinfecting wipes.
