Project

Honoring Student Teachers

Each year our chapter honors outstanding student teachers from the two local universities in our area. They are invited to our April/May meeting and given a chance to share with our group. They receive a framed certificate, and their names are engraved on plaques permanently displayed at each university. They are given our contact info and encouraged to stay in touch with us and reach out with any needs or concerns. We follow up with them once they start teaching to see if they would like to be a chapter member.
