Myers-Briggs Personality Profile with Marsha Brewer

Chapter members received a questionnaire with instructions to complete the top portion prior to our January Zoom meeting. Marsha provided an insightful presentation that included PowerPoint slides, activities and discussion. We were each able to determine where we fall in regard to the 16 distinctive personality types in the Myers-Briggs framework.

I have no doubt that we all came away with a better understanding and appreciation of the impact of personality on our relationships with our partners, children, friends, and co-workers.
