Emergency Clothing for Elementary Students

School nurses, guidance counselors, and teachers in elementary schools often find themselves in need of emergency clothing for those little ones who just didn't make it to the restroom in time. Alpha Xi decided to help out four of our district's elementary schools by donating new clothing for these emergencies. We packaged "go-bags" that held a pair of sweatpants, socks, and underwear in a 2-gallon zipper bag. The packages were for boys and girls in sizes from Kindergarten through 3rd grade. The zipper bag could then be used to send home the soiled clothing.
