Program Project Icebreaker

Title: Alpha Lambda and Schools for Africa

Summary:

Project:

In conjunction with the School for Africa program in November, 2022, Alpha Lambda printed and sold chapter yearbooks. The yearbooks are 5 x7 and in full color. All the proceeds from this sale went to the International Schools for Africa project. Alpha Lambda has donated more than \$100 to the international project.

The area 9 director, Deborah McDurmon, attended this meeting and made a point to tell me how much she learned from the program.
