Title: Blessing Bags for Foster Children Suddenly Removed from Homes

Summary:

Beta Epsilon is making Blessing Bags on March 8, 2022, for the Isaiah 117 House. This organization provides both physical safety and emotional support for children awaiting foster home placement. Because they are often taken from their homes suddenly, they leave with nothing in many cases, so these bags are designed to comfort them in their new surroundings. Needed items include toothbrushes, toothpaste, combs, brushes, deodorant, shampoo, body wash, etc. Children are also comforted by small blankets, stuffed toys, journals, and arts supplies as well. A member has donated the drawstring backpacks we will be filling for the children.
