XProgram Project Icebreaker

Title: What I Just Couldn't Give Away!

Summary:

At this chapter meeting each member was asked to bring something school-related that “she just couldn't part with”. Members brought an item, a memory, or other memorabilia from their teaching years, something so special that it was saved- sometimes for many years. The stories and items were delightfully shared by each member.

The “wow” factor was that even though many of us have known each other for years, we all learned something new about each other. This activity brought us together in fellowship, and it was a great way to kick-off the first meeting of the year.
