Chapter Program & Projects

Project

Title: Project Period Poverty

Beta Kappa supported local schools by providing personal hygiene products to selected secondary schools in Lincoln and Marshall Counties. The products were delivered to schools in October 2020.

Marshall County members contributed over 1300 units of pads, liners and tampons.

Lincoln County members gave over \$200 in period products to Lincoln County High School earlier this year. Members expanded their fall contributions to include other personal hygiene products. Inspired by Lincoln County members' thoughtfulness, some Marshall County members also included products such as soap, deodorant, shampoo and lotion. School representatives in both counties expressed their appreciation for Beta Kappa's project.
