Program

Title: Young Voter Registration

Summary: Caramia Milloway, librarian at Oak Ridge High School, informed Alpha Epsilon members of the opportunities offered for young voter registration. The school library and the League of Women Voters held a Voter Registration Extravaganza for the community to encourage eligible voters to register. At the beginning of the school year the library display case contained QR codes that linked students to register to vote if they were eligible. The high school is working towards receiving the Anne Dallas Dudley Award that requires 85% of eligible voters in the school to register. Caramia also stated that based on student feedback a focus on the impact student voting has on local elections is more relevant to the school community as compared to the large national elections. Registering to vote is becoming part of the culture at Oak Ridge High School.
