### **Project**

#### **Schools for Africa & Early Career Educators**

**December is typically when we find joy in giving. What better time to remember the “Schools for Africa” campaign and “Early Career Educators.” Alpha Sigma members contributed to our ongoing Schools for Africa fund and donated various gift cards for early educators. (Information about DKG accompanied each card.) Amanda Warren spoke to us regarding her experiences in Africa and her daughter’s “teaching life” there. Amanda emphasized the differences between our schools and theirs, which accentuated the needs they have and that we take for granted. Thus, we gained better insight as to the importance of the SFA project and joy in participating.**
