Program and Project

Domestic Violence: Get the Facts

Beta Delta Chapter combined a program/ project at our February meeting. Change is Possible (CHIPS) is an organization based in Erwin that provides shelter and services to victims and their children that will enable them to begin and maintain a life free of violence. The CHIPS' community educator and program coordinator Renae Tipton presented our program, sharing domestic violence information and statics, CHIPS' mission, services, and volunteer opportunities. The Beta Delta members gifted the shelter with items on their wish list. Items donated include women's bras, socks, personal hygiene/toiletry items, an inflatable mattress, cleaning supplies, and paper products.

***Please note: One of our members and her husband are very active in working with this organization on a regular basis.**
