New Teacher Care Baskets

The Finance and Scholarship Committee of Beta Epsilon chapter will be assembling and providing new teacher survival baskets to new teachers in Murfreesboro City Schools in March. These are personal care baskets that will include bath bombs, bubble bath, scented candles, teas, facial masks, etc. to new teachers who have been recognized by their principals for going above and beyond the call of duty in surviving the pandemic this year. Members have been collecting items since September. The baskets will be assembled at our March meeting and delivered to the designated teachers at their respective schools.
